

TECHNICAL PROSPECTUS: SecurityAllround Agency

OVERVIEW

SecurityAllround is a premier technical audit and infrastructure agency based in Australia. We provide high-authority evaluations of digital and physical security solutions for a sophisticated AU/NZ audience.

AUDIENCE DEMOGRAPHICS

- Region: 85% Australia / 15% New Zealand.
- Interest: High-stakes digital play, crypto-asset custody, network hardening.
- Persona: High-net-worth individuals, tech-early adopters, security professionals.

CONTENT PILLARS

- **OPERATIONAL SECTORS:** A centralised dashboard for vetted security procurement.
- **TECHNICAL AUDITS:** Deep-spectrum analysis of encryption, RNG, and hardware isolation.
- **INFRASTRUCTURE GUIDES:** Step-by-step setup for institutional-grade security hardware.

PROJECT STATUS: PHASE 2 EXPANSION

We are currently executing a major architectural pivot. While "Phase 1" established our authority in the iGaming audit sector, our upcoming "Phase 2" Portal expands this authority into a comprehensive Universal Security Hub. This improved infrastructure features dedicated operational sectors for VPNs, Password Management, and Tactical Hardware.

PARTNERSHIP OPPORTUNITIES

We are currently selecting premium brands for our "Phase 2" launch. Partners are integrated into our operational dashboard as "Field-Verified" solutions, providing high-trust conversion routes for our audience.
